ADVANCED TECHNOLOGY SOLUTIONS AND ACCESSORIES FOR ALL YOUR NEEDS
SPECIALLY DESIGNED FOR THURAYA

Marine Solutions for Thuraya

Teknobil NEXT family of Thuraya products, when used with the specially designed marine antennas, offers superb telecommunication and fleet management solutions for all kinds of marine vessels big and small.

Thuraya Vehicle Docking Adaptor-Marine

An essential accessory for in-vessel use of your Thuraya phone. Enables you to fully utilize your Thuraya phone as a mobile communications terminal with a wealth of features that make your journeys better connected and more enjoyable than ever.

Thuraya Docker - Marine

Wherever you are and whatever you do as a Thuraya user, you would not like to be without a Thuraya Docker. This is a simple, easy to install, easy to use and cost-effective solution to enable your Thuraya phone's voice and computer connection capabilities in all situations.

Thuraya Fixed Docking Adaptor - Marine

Use your ship phone as a Thuraya phone! The Fixed Docking Adaptor enables you to use your Thuraya phone as a full-fledged communications terminal with rich features including PSTN/PABX integration and FCT-like functionality. To be used with the Active Marine Antenna.

Thuraya Line Integrator - Marine

An essential fixed solution to empower your ship's telephone network with a reliable Thuraya connection. Secure box design ensures improved safety and security for common area use in corporate and/or public environments. Can be used as a payphone (PCO) by purchasing the optional payphone license and payphone printer. To be used with the Active Marine Antenna.

Thuraya Active Marine Antenna

Allows you to use longer cables, improving antenna performance in challenging situations.
